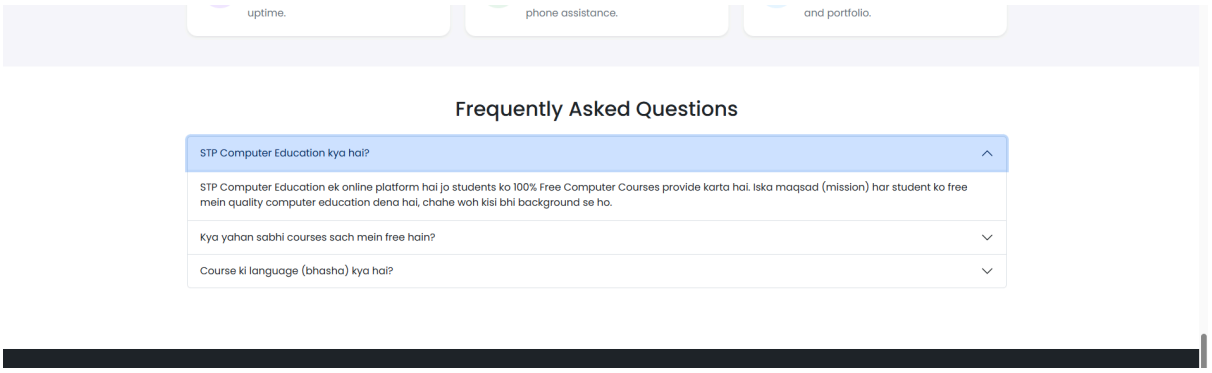
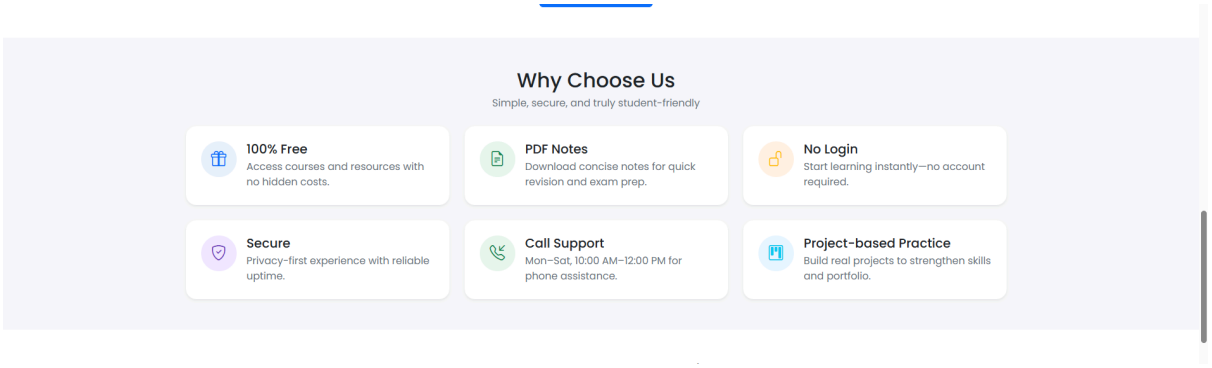
Home Page Feedback

1. Frequently asked question should be like this



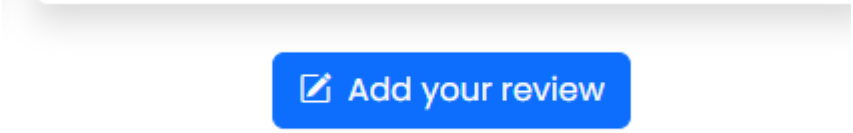
2. Why choose should be like this



3. Student review section should be like marquee which need to be move horizontally and need a specific section in admin portal with specific word limit so we box size will be same and there should be one more button with add which allow user to add the review but this add functionalities will automatically land to goolge review of the business profile

For the reference for please considered the below website link.

Link: - https://www.nwkings.com/courses/cloud-network-engineer-program



4. Trusted by student heading need to be improved our design is very basic as per the design it should be very classy and modern and all website fonts should be same not different font

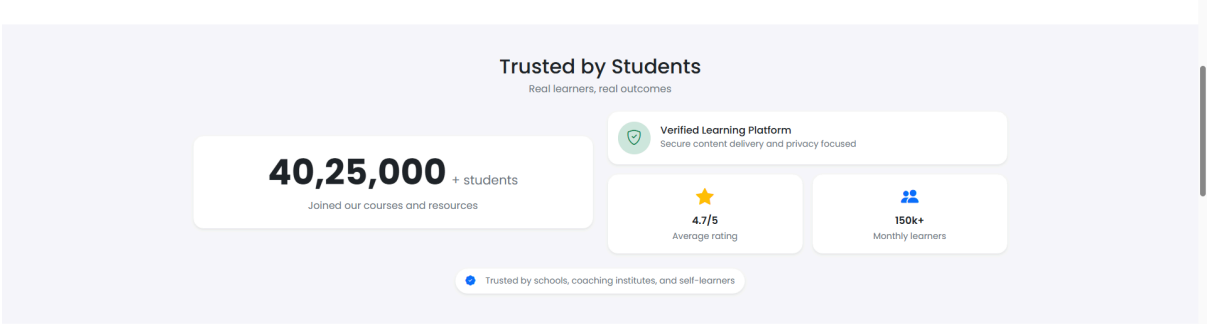


Figure 1 Designed Required

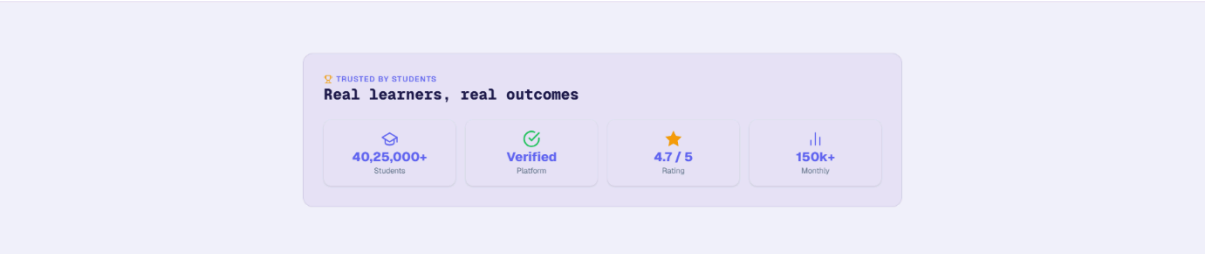

5. Courses section in home page should be like below with image and this image picker functionalities should be in admin portal with fix size whatever image we will give it will resize the pixel and adjust in the box and there should be separate “View all courses” button should be there.

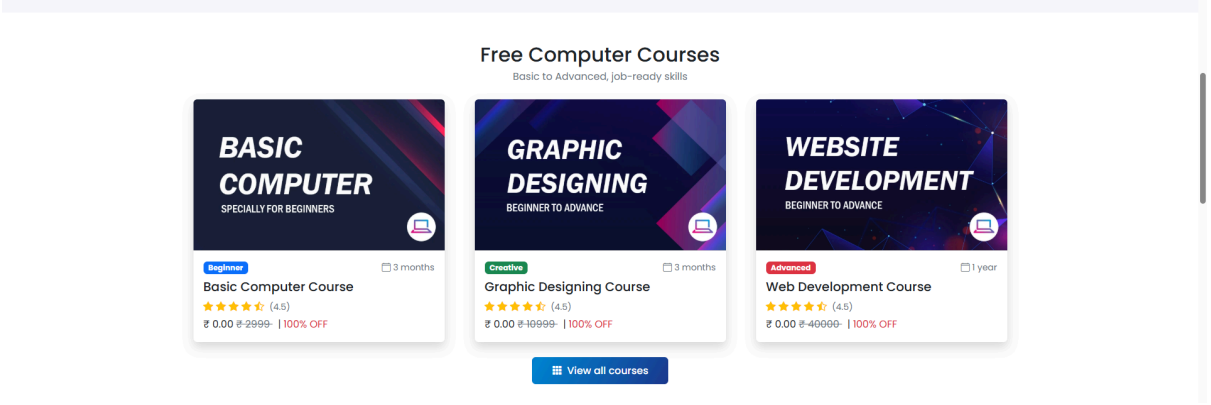

Figure 3 Designed Required

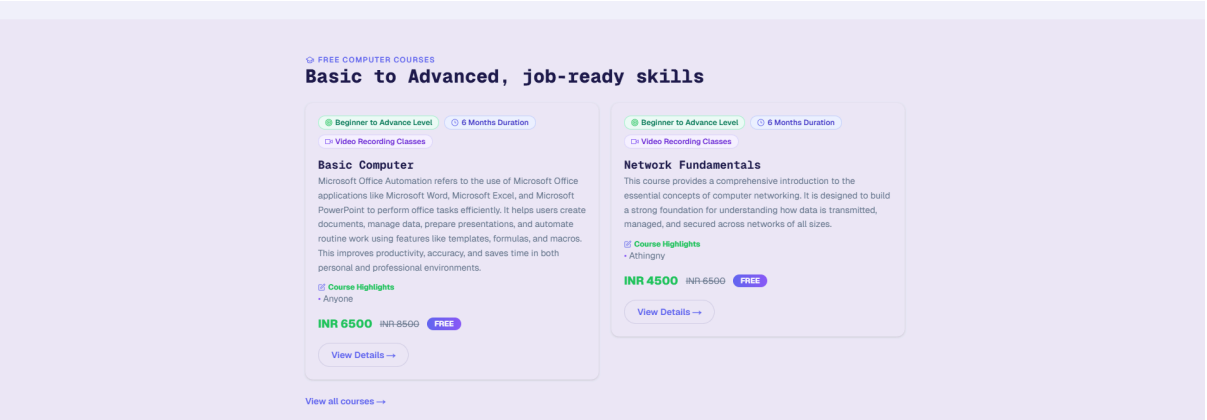

Figure 4 Current Design

6. Categories page also required work as per the designed asked.

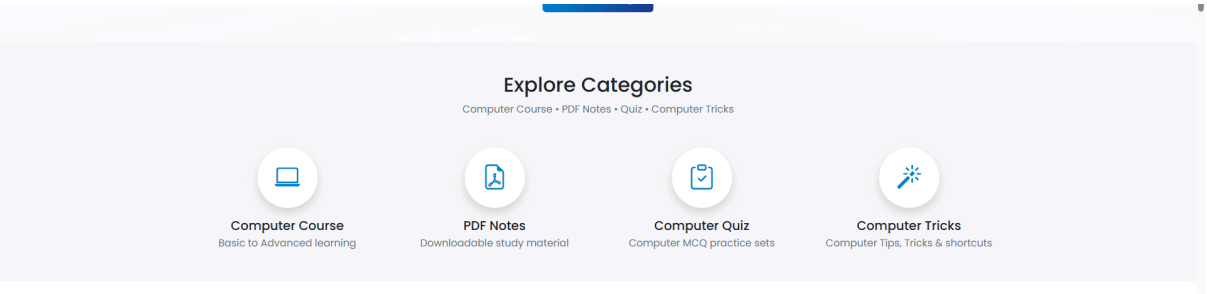

Figure 5 Design Required

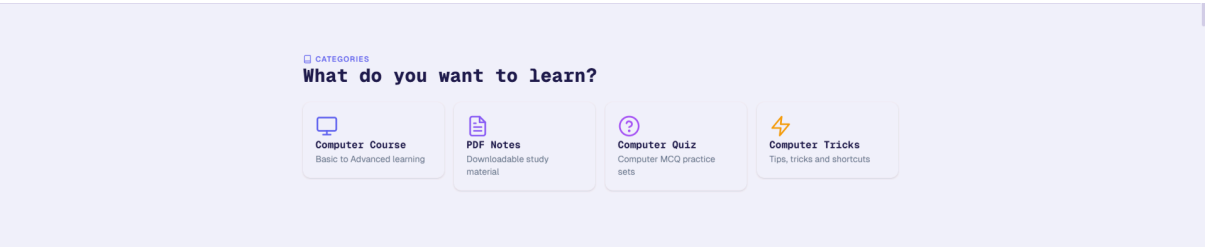

Figure 6 Current Design

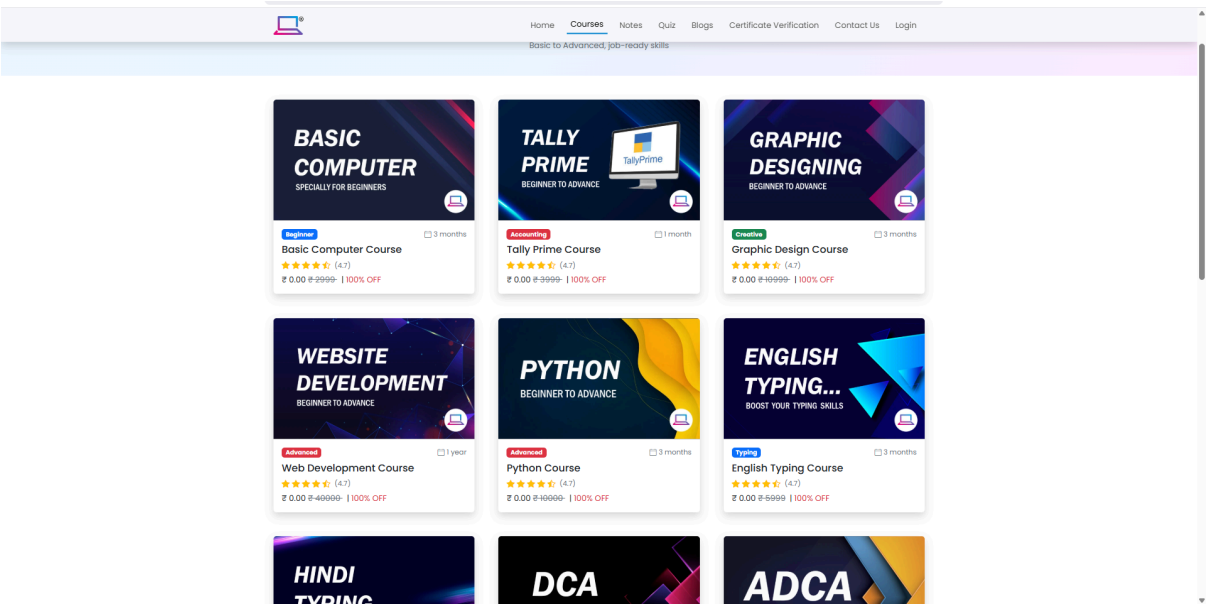
Courses Page Feedback

1. When user select on either Courses option from Navbar or select View all courses from home page it should land to this page and there should be specific box like that which will only contain the following details: -
    a. Courses type e.g:- Accounting
    b. Duration of course e.g:- 1 month
    c. Rating
    d. Actual price
    e. Discounted price
    f. Off

Note:- This all option need to be added on admin portal and drag and drop option should be there for course type I will provide all the course name and if we need to add new course that functionalities all need to be there with duration of the course actual price section should be there and off and everything and if provide off in percentage it will automatically calculated the discounted price and put in the price section in main page. For rating option, it should be not static I need a particular rate option bar in that page which we will automatically add star in the front page.



2. After clicking on any course there will a separate course description page and for that please go through the below link and check the design it should be like this. It has repetitive things remove that part only considered this one and footer and there should be same components of review section it should be

same but different is heading should be different like “**Our Students, Their Success**”.

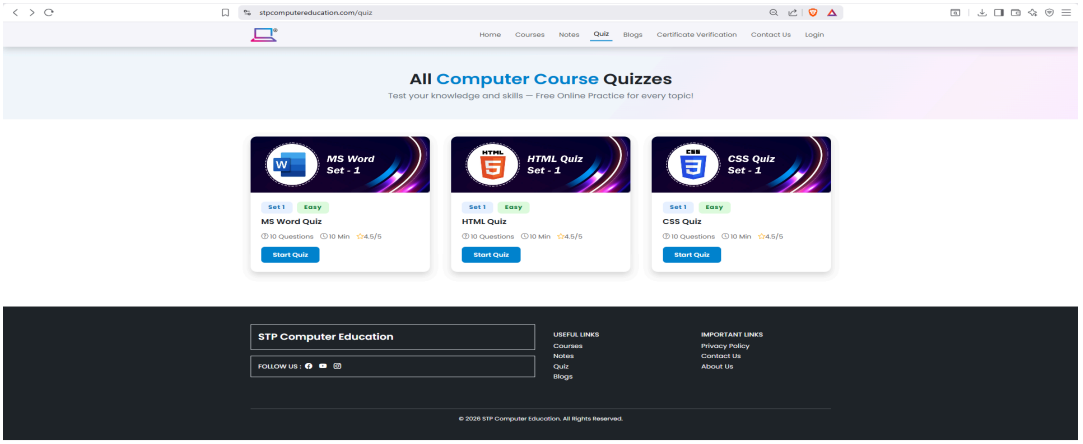
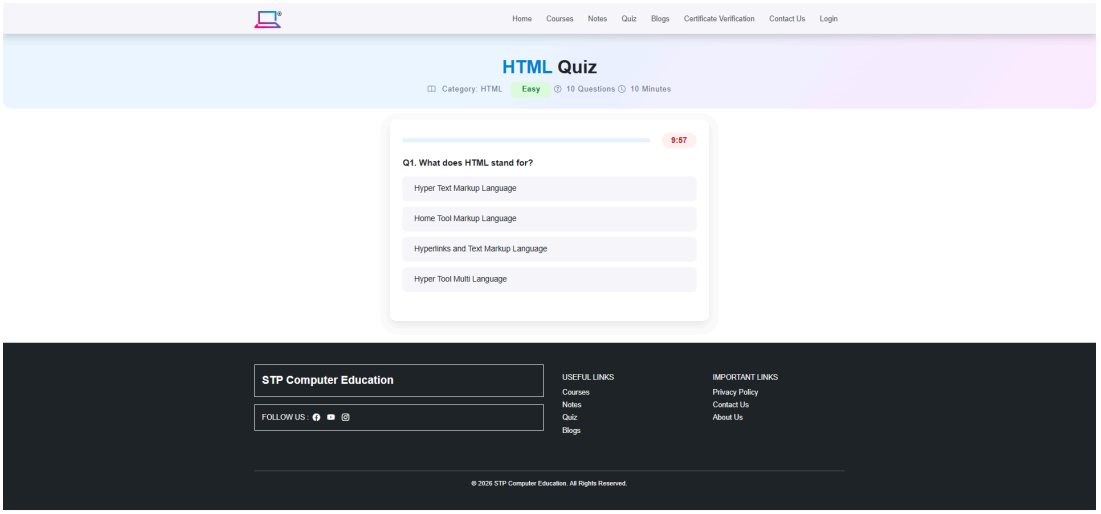
Quizz Page Feedback

1. There is no quiz page which need to be implemented please considered the below image for quiz page integration. Also quiz heading, quiz question, quiz minutes and rating need to be added on admin portal and internal question option also need to be added on the admin portal so admin can create quiz accordingly to it.





PDF Note Page Feedback

1. There is no note page which need to be implemented please considered the below image and pdf add functionalities need to be added on the portal. As you can see when user click on the open/download button it will redirect too the pdf viewer page and user can scroll all the pdf pages and there is option below to download the pdf print the pdf and view legal notice.

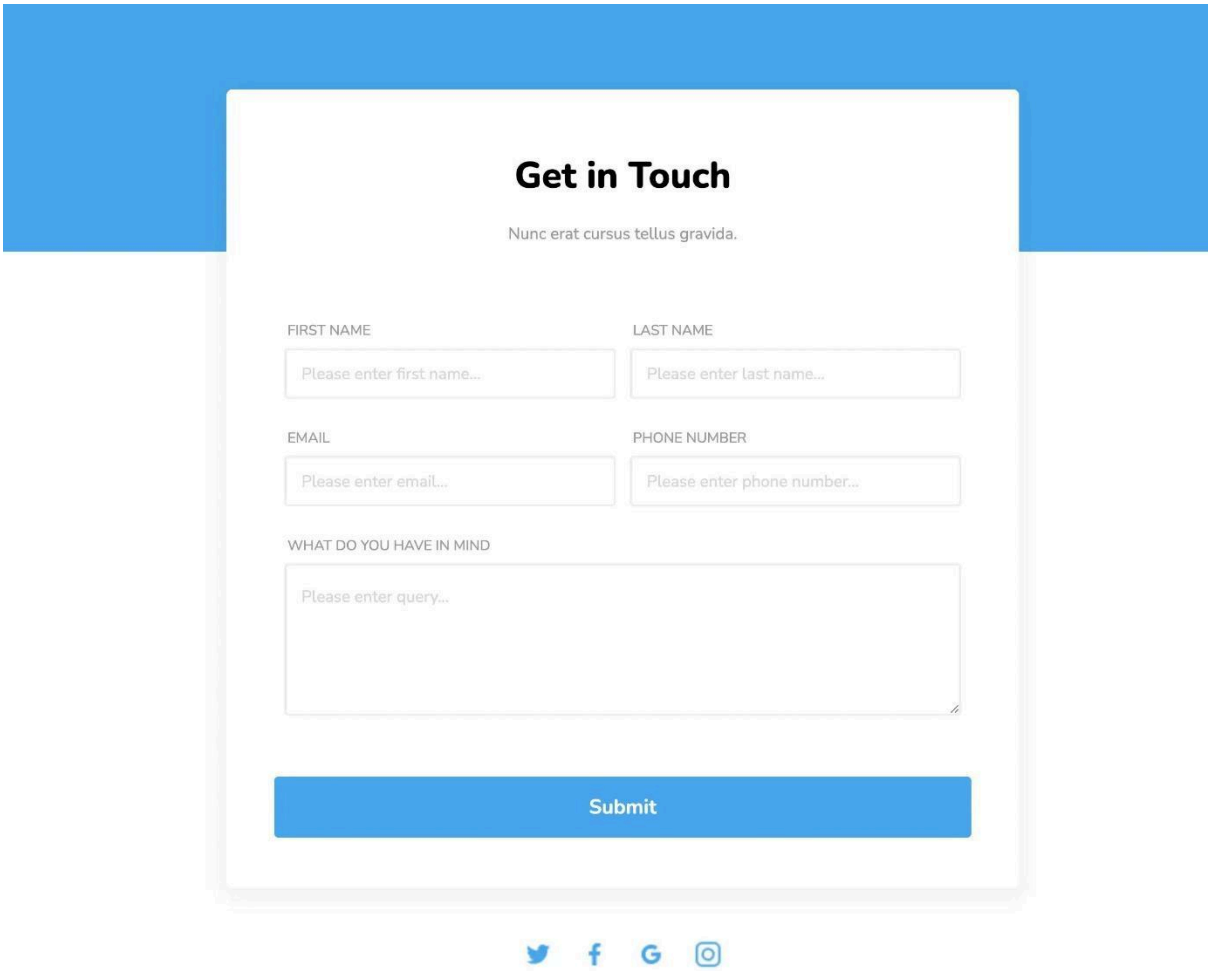
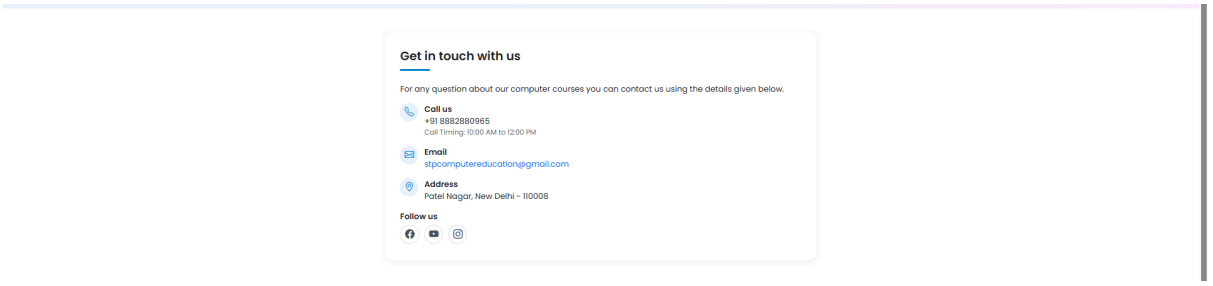
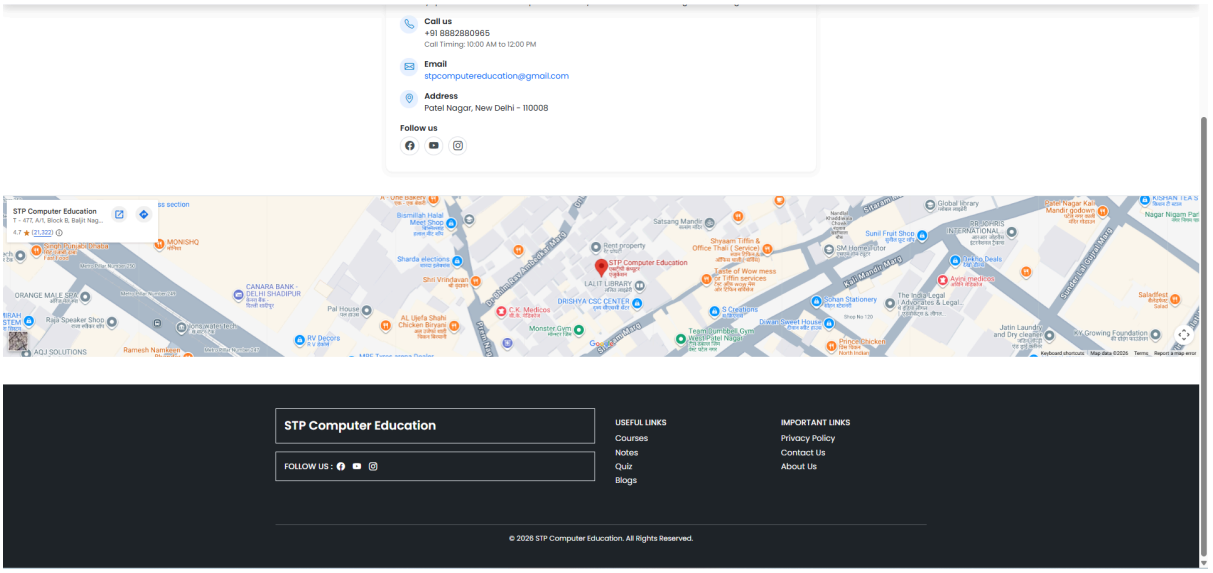
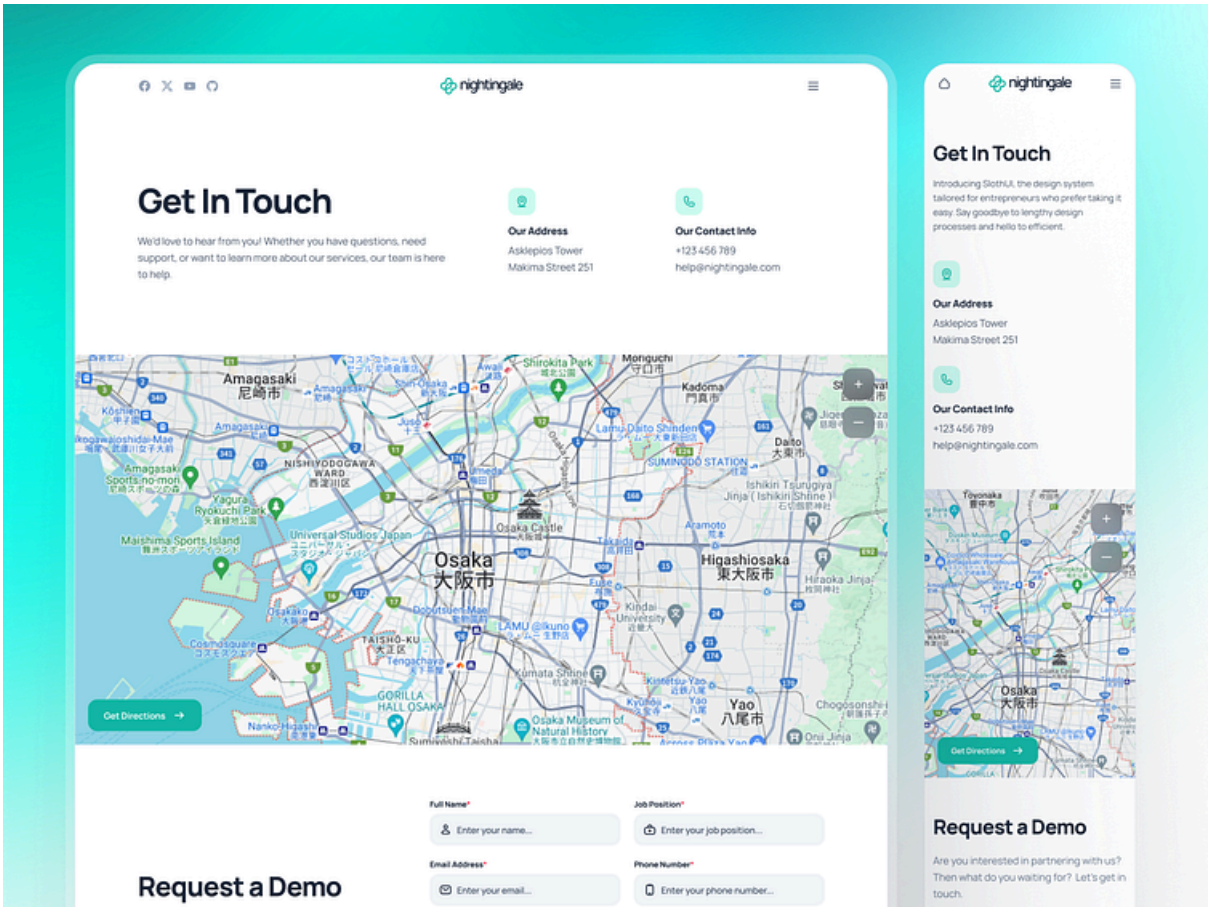
Contact Us Page Feedback

1. Contact us page is not up to mark and design should be same as below one and there should be proper details of the business email contact and address and all social media icons and all this get details can be updated by business in the admin portal by the business/admin team. Google map location is also need to be added in the contact us page and everything should be in very good design .









You can also considered the above outlet for the contact us page.

Please note all fonts should be same and look for best fonts which is being used in website for better design.
